

TACAMO Hall of Fame - 2014

Mickey DiPasquo

Service- Naval Air Development Center
PMA-271 and L-3 Communications
1982-1994

Contributions

- Led tech team evaluating new VLF and navigation systems
- Led NADC lab teams during late Herc and early Merc periods
- Led Navy E-6 development programs in PMA
- Design and engineering lead for EC-135 to Merc crossdeck
- Crafted E-6A to B mod program that made it work
- Pioneering single site, multi-contractor mods concept

Leadership-NADC Lab, many technical teams, PMA-271

Community Service-Unparalleled immersion in TACAMO mission by a government civilian. Acknowledged as 'the expert' in TACAMO systems and how to field them.

Peer recognition- Unanimous BOD, PMAs and COs, and NAVAIR peers
